

We call on all donors and decision-makers to **shift power to adolescent girls** and young feminist-led organisations.

Adolescent girls are one of the most marginalised demographic groups globally.

Adolescent girls make up 33% of the global female population.

Yet, Generation Equality has not established formal accountability for adolescent girls.

## We demand

1. For **accountability** tools and mechanisms to be **accessible, participatory, well-resourced, and supported**.
2. For adolescent girls to play an **active role** and have **direct decision-making power** in accountability processes and beyond.
